

JUAN MANUEL ARAGON ARMAS

Data Engineer | Python · PySpark · Databricks · SQL

Turin, Italy | juanMAragon | juanMAragon | portfolio

SKILLS

AI & Machine Learning
PyTorch, scikit-learn, MLflow, Generative AI

Data Engineering
PySpark, Databricks, Delta Lake

Programming
Python, SQL, Bash

Tools
Git, AWS, Power BI, OpenStreetMap, KeplerGL, H3

LANGUAGES

Spanish
Native

Italian
C1
- CELI B2, 2017

English
C1
- TOEFL C1, 2020

CERTIFICATES

Deploy Workloads with Lakeflow Jobs
Databricks Knowledge Badge, Nov 2026

Data Ingestion with Lakeflow Connect
Databricks Knowledge Badge, Oct 2026

Databricks Get Started Days (Data Eng. + Generative AI)
Databricks Academy, Sep 2026

Databricks Certified Data Engineer Associate – Preparation
Udemy, Dec 2025

Databricks Fundamentals
Databricks Accreditation, Aug 2025

Data Management & Governance with Unity Catalog
Databricks Academy, Aug 2025

Ultimate AWS Certified Cloud Practitioner CLF-C02
Udemy, Aug 2024

EXPERIENCE

Data Analyst & Data Engineer | AizoOn Technology Consulting

November 2022 – Present | Turin, Italy

- **AI/ML:** Apply clustering and predictive modeling techniques to GPS and vehicle telematics data to identify driving patterns and support vehicle performance analysis.
- **Data engineering:** Develop and maintain production data pipelines and Databricks jobs using Python, PySpark, and SQL to process vehicle telematics data for fuel consumption analysis, with a focus on processing efficiency and cloud cost optimization.
- **Data visualization:** Develop interactive geospatial visualizations of vehicle routes and driving behavior, enabling users to explore telematics data and compare driving patterns across journeys.
- **Platform & Reliability:** Troubleshoot and optimize Databricks workflows, addressing data quality, execution performance, and production reliability issues.

Python Tutor | Kodland

January 2026 – August 2026 | Turin, Italy

- Taught Python and AI to students aged 10–15 through hands-on projects.

Data Engineer Internship | AizoOn Technology Consulting

April 2022 – July 2022 | Turin, Italy

- Developed an **art recommender system**: extracts visual features from images to suggest artworks matching a user's previous preferences.

EDUCATION

MSc Data Science and Engineering | Politecnico di Torino

October 2020 – April 2023 | Turin, Italy

- GPA: 108/110

BSc Software Engineering | Politecnico di Torino

October 2017 – December 2020 | Turin, Italy

- GPA: 97/110

PROJECTS

Divide & Classify – MSc Thesis |

July 2022 – March 2023 | Politecnico di Torino

- Built classification models for visual geolocalization in large-scale urban scenarios; contributed to an ICCV 2023 publication.

Real-time Domain Adaptation in Semantic Segmentation |

March 2021 – July 2021 | Politecnico di Torino

- Explored domain adaptation with self-supervised learning and pseudo-label generation.
